Notification of Title IX Coordinator		
Title IX remains a critical federal civil rights law that prohibits discrimination on the basis of sex (including sexual harassment) in our schools. It protects male and female students and employees in any educational entity that receives federal funds. In addition, Title IX protects transgender students and students who do not conform to sex stereotypes. State law also prohibits discrimination based on gender (sex), gender expression, gender identity, and sexual orientation. The preamble to Title IX of the Education Amendments of 1972 states that: No person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance. All classes and courses will be conducted without regard to the sex of the pupil enrolled, and no pupil will be prohibited from enrolling in a class on the basis of the pupil's sex, except as permitted by law. When programs, activities, and athletic teams are in place, Alliance schools will maintain separate programs, activities, and teams for male and female scholars. Scholars may participate in sex-segregated programs, activities, and athletic teams consistent with the scholar's gender identity. Alliance schools maintain separate restroom facilities for male and female scholars. Single stall restrooms are general-neutral. Scholars may use facilities consistent with their gender identity. If there is a desire for increased privacy and/or safety, regardless of the underlying purpose or cause, any scholar and/or parent guardian may request a meeting with school administration to determine the appropriate accommodation(s). More information about Title IX can be found on the California Department of Education's website: https://www.cde.ca.gov/re/di/eo/genequitytitleix.asp
